

What words come to mind when you think of St. Michael's and our parish community?	What do people say about the parish and congregation?	What would help you feel more welcomed or part of the St. Michael parish community?	What would help you to get more involved at St. Michael's?	What first brought you to St. Michael's?	What made you decide to come back to St. Michael's?	What is the #1 reason you may miss mass?	What would help you to sing along more at mass?	What ideas do you have for improving any of the above ministries?	What could we do to encourage new members to join St. Michael's?	What are the obstacles keeping people from coming to St. Michael's?	What are the biggest challenges in your life right now? How could the parish help with these?
friendly people	we are a team and get things done	already feel welcomed & part of St. Michael's parish community	already involved	small church & can feel more welcomed	first church that can be part of family setting	work times	being able to sing		get out to the public and give a senerial about our church	don't know about our church and how we are a family community	
family & friends coming together to worship	some are positive thoughts and some negative	greeters		when I moved back to Sebree attended with parents	never left	sickness	familiar hymns, for the music in mass not to changing so often	working together and better communication	more family activities, better music and homily	more communication and personal greeting from pastor before masses	to keep our families safe, in church and development in the faith
.	.					work sick/sick kiddos/celebration at another church for my family out of town	I try				work - can't help
small, homey, feel at home	friendly			mass time As a child we would visit St Michael's quite often. (We were members of Holy Name)	friendly people and felt very welcomed that I was there		can't sing well but I try				raising grandkids
close-knit	--	I always feel welcome!	--		I enjoy the close relationships that are built by being a smaller church.	I never miss mass. Weather, out of town	If the songs were more uplifting, better known songs I would sing more.	--	--	--	--
Faith community	Keeps getting smaller		Nothing	Location	Never left						
Good place for worship	Friendly.		Currently nothing, as work constraints limit my ability to always participate.	Locality to home I was first introduced to St. Michael's as a child. My baptism was held here.	I have been a member since it was started.	Out of town, weather, work.	Many times the number on the board doesn't match the actual number of the song. These need to be verified that they are correct			I have heard many state they go elsewhere if the mass is bilingual. It's difficult to get as much out of the Mass when you cannot understand or always follow along.	
Wonderful, friendly, family oriented, warming environment, amazing parish family	That we are a family base, for all people	Nothing really. I feel very welcomed and part of the St. Michael's family.	Time management on my part with my family.		Being Catholic and moved back to the community.	Family obligations	Knowing the songs, but I sing along	Patty and Father Al do a great job.	Make flyers to hang up around town to see if new people are in town.	Don't know.	Family, and no help-have under control.
									Continue with the greeters before Mass, this is very nice for visitors to feel welcomed. Also I think the Breakfasts that the KC are beginnig to have will help. We need to encourage more people to attend, not just the regulars. A sense of Community will strengthen any Church.	Unfortunately Father Al's sermon's are lacking. I do not get anything from them and have heard the same comment from guests visiting St Michael's I can't find his message in his homilies. The Deacons coming once a month is a blessing.	keeping my faith in a world that is fighting to destroy it.
small and friendly	Everyone knows everyone else		If I didn't work full time	Convenience and Father Jason	I like the small church and the people	out of town	knowing the songs and a better music minister				An occasional guest speaker to address different subjects
breaking apart	??	I feel welcome and	Better	family		I feel like mass is	Sing songs that	Don't focus		uninspiring and	

		comfortable	organization younger people			unorganized and uninspiring. I can not relate to the homily and sometimes can't even follow it.	everyone knows and that are easy to sing.	primarily on the Hispanic community		unorganized mass	
Family, sharing, support	Friendly, welcoming	Meet and greet after mass		location	friendly, felt welcomed	out of town		I was not aware of any Adult Faith formation			
disjointed	n/A	All of the people in the congregation are quite welcoming and very kind.	I did attend St. Michael's, but I am now a member of Holy Name	My Mom was a dedicated member of the church Later mass time because of work schedule	Family atmosphere	illness	More instruments (guitars). I attend the 5:30pm mass at Holy Name because the music incorporates multiple vocalists, guitars, other instruments. I very much enjoy the upbeat atmosphere of that mass.	I really believe you need more core involvement .	The only issue I have at St. Michael's is the fact that the priest is horrible at delivering the homily. I think he is a wonderful person, but a terrible homilist. I have much difficulty following his homily and cannot think of a time in over 1.5 years that I ever felt inspired by anything he said. Much of the time, I have to reach so deep to follow his monotone delivery, that I end up spacing during the mass. (rather embarrassing to admit, but true)	infertility	
Small family like community	People are friendly and Pastor has good sermons					Sick					
Church community family	Wonderful always made to feel welcome	A more open priest	More people participation and our priest don't know, perhaps not working or having a more regular work schedule. (difficult to committ around)	Catholic faith	Always been a member	Illness	Someone who can play	More volunteers	A priest who is more outgoing and can give a good homily. When we have visiting priest they comment we are starved for our catholic faith	Priest we need our own pastor!	I am very blessed and try to reach out to the community and church people. Also physically help with church stewardship
Small, caring, unassuming, & welcoming	Friendly, kind, & helping	nothing...feel very welcome		Convenience to home,good mass time on Saturday	Small, intimate mass size....friendly welcoming members	weather	nothing	don't know enough to make suggestion	keep doing what you are doing Have more of an upbeat and upliftng service with the music we have	location...primary population served is located in a rural low density population area.	.....continue to say mass on Sat evenings
Not interesting or engaging				When Fr. Jason became the Priest		Work	more uplifting and upbeat music				
friendly	everyone is welcoming	I already feel very welcomed	I would like to get more involved	i was baptised as a baby	I moved back home after an illness	sickness	songs that i know	Would like to have more adult faith sharing groups	Get out in community	Some don't have transportation or might be I'll.	Fighting cancer and beating it. Just pray that it goes away and stays gone.
